BACKSEAT ACADEMY
A SCREEN-FREE PACK FOR AGES 4–8

The Winter Window Pack

Twenty quiet things to do in a car, a café wait, or a grey afternoon at home.

Original line drawings. No licensed characters. For personal use by the household that bought it.

FOR THE GROWN-UP

How to use this pack

Print the pages you want, one-sided, before you leave. A clipboard or a hardback book makes a decent table. A pencil is enough; a small set of colours is a gift.

The pack is written for children of about four to eight. A younger child will need you. An older child can skip the tracing and keep the mazes, the word hunt, and the story page.

There is no timer and no score, except the ones the child invents. These pages do not promise a reading level, a learning outcome, or a quiet hour. They are something to do with the hands when the window is the only screen.

You may print copies for your own household and for one classroom or carpool you already belong to. Please don’t sell the files, or upload them to a sharing group as a free pack.

The drawings are ours. They are not from a film, a television show, or a toy line.
